

DEVAGUDI JAGADEESWAR REDDY

B.Tech CSE (AI) | Full Stack & AI Developer

+91 9885934850 | jagadeeswarreddy919@gmail.com | LinkedIn | GitHub

Summary

Motivated final-year B.Tech Computer Science (AI) student with strong interests in Artificial Intelligence, Full Stack Development, and problem-solving. Quick learner with hands-on experience through projects and internships. Passionate about applying technical skills, learning emerging technologies, and contributing effectively in a technology-driven organization.

Education

Parul University, Vadodara

2024 - 2027

B.Tech - Computer Science Engineering (AI) | CGPA: 6.9

S.V. Govt. Polytechnic College, Tirupati

Completed

Diploma - Electronics & Communication Engineering | Score: 75%

Keshava Reddy EM High School, Andhra Pradesh

Completed

SSC (10th Grade) | CGPA: 10

Skills

Technical Skills

- Python, JavaScript, SQL
- HTML, CSS, React, FastAPI
- Machine Learning, NLP, Generative AI
- REST APIs, AWS Cloud

Core ECE Knowledge

- Communication Signals
- Digital Electronics
- Circuit Design
- Microprocessors & Microcontrollers

Projects & Internship

Raktsetu - AI-Powered Blood Donor Matching Platform

Jan 2026

Python, FastAPI, React, Machine Learning, NLP, PostgreSQL

- Developed an AI-powered platform connecting blood donors and recipients using compatibility matching.
- Implemented NLP-based urgency classification, real-time donor search, and live notifications.
- Built frontend using React and backend using FastAPI with PostgreSQL database.

AI-Driven Skill Gap Analyzer & Learning Recommender

Oct 2025

Python, Machine Learning, Full Stack, AWS, NLP

- Built an AI platform to identify skill gaps between user profiles and target job roles.
- Trained ML models to generate ranked, personalised learning path recommendations.
- Deployed full-stack web app on AWS with NLP-based resume and job description parsing.

Quality Check Intern - Vikram Solar Pvt. Ltd.

Nov 2023 - May 2024

On-site Internship

- Inspected solar panels for quality compliance with ISO standards and maintained quality dashboards using MS Excel.
- Collaborated with production teams to reduce defects and improve inspection efficiency through SOP enhancements.

Certifications

- Generative AI Fundamentals - Coursera
- AWS Cloud Computing Basics - AWS Academy
- Machine Learning with Python - IBM / Coursera
